Employment & Training

Service
Canada 

The Employment & Training department of the MMF welcomes clients into their offices to meet with qualified staff that will assist them in discovering what their employability skills are and how we can be of further assistance.

Whether you are a client who has been on Employment Insurance within the last 5 years or a client who has not had the opportunity to successfully gain employment, our office will provide you with those supports to guide you towards a more meaningful life.

Through our department you can receive:

- Guidance towards the local labour market (to ensure positive employment outcomes)
- Skills training in a program to enhance your employability
- Experience with employers to obtain valuable hands on work experience

A counsellor will meet with you and assist you with:

- Determining your own level of employability skills
- Determining whether you require occupational or skills training
- Guiding you through the application process
- Providing continued supports before, during and after your training
- Working with you to enhance your employment prospects

Who can participate?

You may be eligible if you are Metis, Non-status Indian or Inuit and fit into one of these categories:

- Unemployed or working less than an average of 20 hours/week
- Employed individuals who are low skilled or a lower income individual or family with dependent child(ren)
- An individual who is about to lose your job
- Currently on Employment & Income Assistance

However through our minimum level of service, the Employment & Training department of the MMF extends it's services to anyone requiring assistance.

Please visit our office:

- To receive an assessment of your need for employment services which could result in a referral to another agency or service provider, and
- To access a computer with internet connections for accessing the labour market data and relevant information.
